COINVERSE

- OVERVIEW
- COINVERSE (CVS) is a token that generate passive income on ETH,BNB,POLYGON networks . it's primary usecase is to devlope an easy to use token swap across all 3 chains.this is being created by a based team.
- The anti-bot measure mean that at launch and during trading.bots will be on spotted and sniped so that can buy and sell COINVERSE (CVS) . This is an esential part of sustaining a healthy and long term growth pattern.
- The experience team have previouly worked on numereous other successful projects.

ICO

- There will be private sale on BNB,BUSD. followed by a ICO on pancakeswap.
- The ICO launch will go live on pancakeswap with raised liquidity . their will be small portion of the supply which will be used for future exchanges liquidity.
- **PRIVATE PRESALE ALLOCATION**
 - - 60% OF SUPPLY ON SWAP&EXCHANGES.
 - -25% OF SUPPLY COMMUNITY HOLDS.
 - - 10% OF SUPPLY ARE AVAILABLE FOR PRESALE.
 - - 5% OF SUPPLY DISTRIBUTED ON AIRDROP.

- LAUNCH COINVERSE B;OCKCHAIN

MULTI-CHAIN

- COINVERSE (CVS) is not just an other meme token , it is something fun with utility. COINVERSE will be launched on multiple chains first launching on binance network. to prove the developers at COINVERSE are seriously about what we are developing. ethereum brings stability to the brand and project.this is the way we are launching on BNB first because we are in for the long haul.
- all of this we will tie into our usecase which is in development of our own token swap “COINVERSE SWAP”.

COINVERSE-SWAP

- COINVERSE swap will be a cross-chain token swap that will allow you to trade between ETH,BSC,and POLYGON.
- who is ready to take this project to moon and beyond!now you know why COINVERSE will make new changes in upcoming time in cryptoverse.
- come join our hoard of COINVERSE warriors and let your inner coinverse out!
- TOKEN NAME- COINVERSE
- TOKEN SYMBOL-(CVS)
